		1 Custom Contest / Year

Reach everyone, or just a few.

We will automatically show your ads to people who are most likely to find your ads relevant. We can further target your ad delivery with three audience selection tools.

Core Audiences

Define an audience based on criteria like age, interests, geography and more.

Custom Audiences

Get back in touch with people who have engaged with your business, online or off.

Lookalike Audiences

Reach new people whose interests are similar to those of your best customers.

BRAND DESIGN OPTIONS

THE BRAND GUIDELINES

LET'S GET STARTED

MAKE YOUR BUSINESS STAND OUT.

We collaborate one-on-one with small business owners to create a crafted brand design, online collateral, print collateral, and websites to help your business elevate your marketing.

Brand guidelines is what brings your brand to life. We offer three different levels for different budgets and needs, along with opportunities to customize with branding add-ons and extra marketing collateral designs.

ABOUT THE PROCESS

BUILDING A MEMORABLE BRAND TAKES MORE
THAN A WELL DESIGNED LOGO..

1

DISCOVER

Together we will dig into your brand foundation.

We will ask you to collect visual inspiration and examples. Then we will call to talk about brand clarity to discuss goals and vision.

2

DESIGN

From there we will start designing and send you a presentation of two logos and brand styling concepts to choose from. After one is chosen, we'll refine and then continue to develop your brand guidelines with design elements from your options

3

DEVELOP

After finalizing your brand guidelines, we bring things all together. Depending on the option you selected, this may involve other collateral design pieces or launching a website. Our goal is to give attention to all the details.

THE STARTER

Option 1: Is perfect for small business owners and start-ups who are ready to invest and collaborate with a designer to create a custom brand identity for their business. This option has the essentials to help you start to develop a cohesive, authentic, professional brand.

THIS OPTION INCLUDES:

Creative Brand Call

Creative Brief Review

2 Original Logo Designs + Brand Concepts

Full Brand Designs + Library of Elements

- Logo Suite: Primary Logo + Variations
- Watermark + Variations
- Favicon
- Font System + Typography
- Color Palette

Brand Guidelines PDF Document

Need something not included? We are happy to customize your brand guidelines with add-ons, so you get exactly what you need.

INVESTMENT: \$2,500

Searched Engine Marketing / PPC

More than 60% of website traffic starts with a search engine query. Pay-Per-Click (PPC) puts your brand at the top of search results for queries relevant to your brand and audience. This valuable advertising real estate can provide an immediate source of targeted traffic to your website, driving conversions and contributing to revenue growth.

Our PPC services include:

- PPC Strategy Development
- PPC Research
- Campaign Setup
- Turnkey PPC Campaigns
- PPC Optimization

At Charleston Radio Group, we have extensive experience leveraging PPC to drive growth for our clients. Our approach to PPC is data-driven, which allows us to deploy campaigns that focus on efficiency and constant improvement.

Get The Results That Matter To You

INCREASE STORE VISITS

Get more customers in the door

8 REASONS WHY SEO HELPS YOUR BUSINESS

Smart business owners know how important search engine optimization (SEO) is for their company's websites. SEO, with Charlottesville Radio Group, will help to increase your website's visibility on all the search engines.

This means that your website will show up in the top search results when someone searches for a keyword or phrase that applies to their business. Being in the top results can send thousands of targeted prospects to your website.

Our Radio Group's Smart SEO will actually help your business in many ways!

Consider these benefits of our Smart SEO:

1. You will see an increase in traffic. As your website becomes more optimized over time, it will start to rank higher in the search engines for various search terms. As this happens, you should see an increase in traffic, or prospects viewing your website. Ultimately, this should increase your sales too.
2. It will increase the credibility of your business. Your customers are conditioned to believe that the best businesses are those ranked at the top of the search engines, whether that is true or not.
 - When you rank highly, your prospects perceive your business more favorably, which leads to an increase in sales, conversions, and brand recognition.
3. SEO can lead to long-lasting results. Radio, print, and billboard ads produce short-term rewards. SEO, on the other hand, helps to deliver long-term rewards.
 - By investing in our Smart SEO, your online presence increases, resulting in a more profitable return on investment (ROI).
4. You are in control of the cost. Whether you are building backlinks, creating a social media presence, or creating blog content, you will know how much it will cost beforehand. Once you know what each service will cost, you can determine which you believe would give you a better ROI. We have 3 different levels of how aggressive you need to be to obtain your desired visibility.

8 REASONS WHY SEO HELPS YOUR BUSINESS

5. Your website will become more user-friendly. Our SEO experts will be able to look at your website and optimize it not only for the search engines but also for your users too.

- Improving your website's user experience includes many aspects, including how quickly your website loads, how easy it is to navigate, and whether it is mobile-friendly.

- By improving the user experience of your website, you will see an increase in conversions, plus you should see an overall ranking increase in the search engines, as this is one of the known ranking factors.

6. SEO helps encourage users to visit a local store. It has been shown in numerous studies that having an online presence can also increase visits to your offline premises. If you have a restaurant, for example, a potential customer could check out your menu or customer reviews before making a reservation.

7. Your social media following will increase. As your search engine rankings increase, more visitors will arrive at your website. Even if they do not immediately buy from you, they may still end up checking out your social media platforms, follow them, and then become buyers later on.

- These new followers can also share your marketing messages, leading to an increase in social traffic and sales.

8. SEO helps put you ahead of your competitors. As you integrate our Smart SEO plans and various other online marketing techniques into your business, you will move ahead of those competitors who have not implemented these techniques.

Geo-fencing

GEO-FENCED COMPETITOR

AD SERVED

CONVERSION ZONE

HOW DOES GEO-FENCING WORK?

Step 1: A virtual boundary is drawn around a physical location.

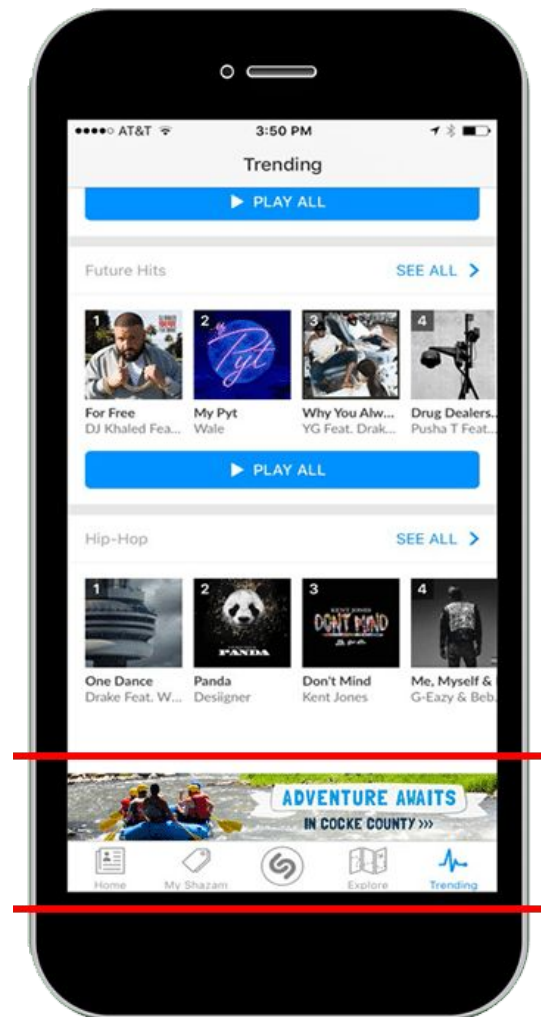

Step 2: A user enters the geo-fenced location.

Step 3: The user is served ads from the geo-fencing campaign for up to 30 days.

BENEFITS OF GEO-FENCING

Geo-fence technology enables you to capture audiences through custom targeting shapes around businesses, street and highway boundaries, municipalities, etc.

- The most reliable way to target mobile users in your business's proximity
- Pinpoint accuracy
- Granular localization via custom shapes & sizes
- Boost mobile performance and reach
- Retarget customers who visit or commute through any geo-fenced location
- Track off-line or "last mile" conversions to measure your campaign's effectiveness
- Leverage targeted campaigns only to customers within a predetermined physical proximity to your business or your competitor's business

Yelp Ads

Yelp's top priority remains connecting consumers with great local businesses **Reach your customers on Yelp with two products:**

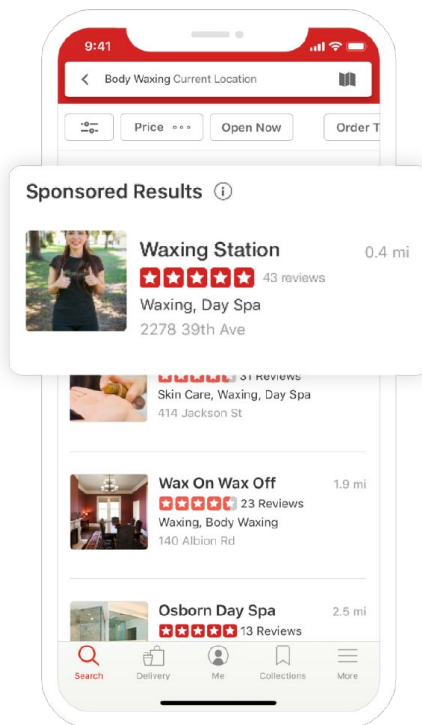

1. Search Advertising

Yelp Ads appear:

- Above search results
- On competitors' pages

Benefits of Yelp Search Ads:

- Increase visibility and reach
- Drive more traffic to your website
- More qualified leads

2. Enhanced Profile

- Brand Consistency
- Control Photo Content
- Complimentary Video Hosting
- Highlight new items or specials with call to action unit
- Focus potential customers on you by removing competitor ads

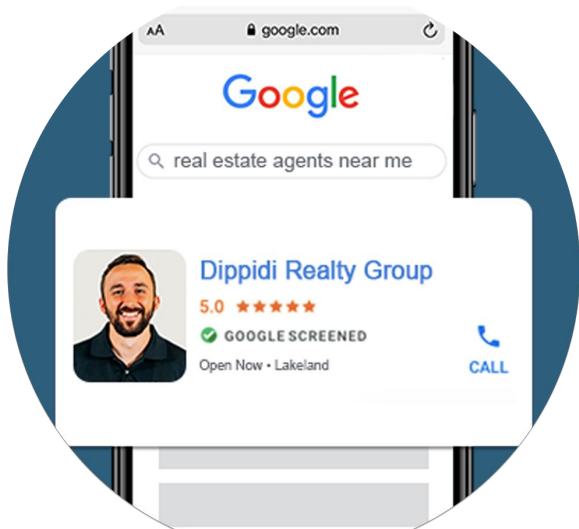

Local Service Ads

Get more leads and grow your business

Local Services ads help you connect with people who search on Google for the services you offer. Your ads will show up for customers in your service area, and you only pay if a customer calls you directly through the ad.

Show Up at All The Right Times

Your ads appear on Google Search and on the [Local Services site](#) when locals look for services like yours. Get your business to show up at the right time so it's easy to find you when they need you most.

Earn Customers Trust With A Google Badge

Become a [Google Screened](#) or [Google Guaranteed](#) provider and earn a badge for your business based on your industry. A Google badge gives you extra credibility and gives customers more confidence to book your services.

Only Pay For Results

Set your budget and only pay when a customer gets in touch directly from your ad so you can focus on your business.

Not sure where to start? We can use our budget tool to help you decide on a budget.

Google Shopping Ads

Shopping campaigns can be used to **promote your online and local inventory**, boost traffic to your website or local store, and find better qualified leads.

To get started, we'll help you setup your product data with Merchant Center and create a campaign in Google Ads. Then we'll use your campaign to create shopping ads on Google and around the web where potential customers can see what you're selling.

Shopping ads appear in a different, **more visual format than regular search ads**. In contrast to a text ad, which displays text only, Shopping ads show users a photo of your product, plus a title, price, store name, and more. These ads give users a strong sense of the product you're selling before they click the ad, which gives you more qualified leads.

Example of Google Shopping Ads:

Email Blast

WHAT

A digital marketing strategy is used to send emails and develop relationships with prospects and customers. An effective email marketing strategy converts prospects into customers, and turns first time buyers into recurring customers.

WHY

According to Optinmonster, 58% of people check their email before social media. In fact, businesses that use email marketing as a way to communicate with their audience make triple the amount of revenue as a business owner who does not.

BENEFITS OF EMAIL MARKETING:

- Higher guaranteed click-through rates
- Additional traffic to your website
- Increased conversion rates
- Easy-to-understand analytics and reporting
- Hyper-target your audience where they are engaging most
- Connect with an audience that has expressed brand interest
- 500+ Data Qualifiers to Target for outbound email marketing

TARGET OPTIONS

GeoGraphic: City, County, Zip Code
DemoGraphic: Age, HHI, Credit, Etc.
PsychoGraphic: Habits, Hobbies, Values, Etc.
Behavioral: Websites Visited, Search Terms, Purchase History

BENEFITS OF GEO-FENCING

Addressable Geo-fence technology offers:

- The most reliable way to target users on various devices in your target demographic
- Pinpoint accuracy & localization via platline data
- Anticipated 90% match rate for mailing lists
- Retarget customers/prospects on your mailing list
- Foot traffic attribution to measure your campaign's effectiveness
- Cross device execution

CTV & OTT - Video Advertising

What is OTT (Over The Top)?

An “over-the-top” media service is any online content provider that offers streaming media as a standalone product. The term is commonly applied to video-on-demand platforms, but also refers to audio streaming, messaging services, or internet-based voice calling solutions.

What is CTV (Connected TV)?

Connected TV specifically refers to televisions that have access to an internet connection and can load or stream digital content. This mainly includes Smart TVs (where internet connection is built-in).

Why CTV & OTT Advertising?

With over 50% of North Americans maintaining Netflix subscriptions, it's clear consumers love CTV & OTT content. Here are just a few reasons why the format is more appealing than traditional alternatives:

- **Targeting your key audience** in their homes while streaming their favorite shows is a valuable opportunity. Millions of Americans are leaving cable TV behind and moving to CTV & OTT entertainment. This provides an ever growing advertisement opportunity for businesses around the country to reach new customers.
- **Compatibility with multiple devices:** This provides ample opportunity to reach people wherever they are streaming their favorite shows. For years, watching cable television required a television set. Today, we can watch CTV & OTT content from a broad range of devices. Any account holder can enjoy the same CTV or OTT experience from a gaming console, smartphone, tablet, or smart TV.

Remarketing

Remarketing is a way to connect with people who previously interacted with your website or mobile app. It allows you to strategically position your ads in front of these audiences as they browse Google or its partner websites, thus helping you increase your brand awareness or remind those audiences to make a purchase.

Benefits

Whether you're looking to drive sales activity, increase registrations, or promote awareness of your brand, remarketing can be a strategic component of your advertising. Below are a few benefits of using remarketing:

- **Prompt reach/Well-timed targeting:** You can show your ads to people who've previously interacted with your business right when they're searching elsewhere and are more likely to make a purchase. You can also help customers find you by showing them your ads when they are actively looking for your business on Google Search.
- **Focused advertising:** You can create remarketing lists to advertise for specific cases. For example, you may create a remarketing list targeted for people who added something to their shopping cart but didn't complete a transaction.
- **Large-scale reach:** You can reach people on your remarketing lists across their devices as they browse over 2 million websites and mobile apps.
- **Efficient pricing:** You can create high-performance remarketing campaigns with automated bidding. Real time bidding calculates the optimal bid for the person viewing your ad, helping you win the ad auction with the best possible price. There's no extra cost to use Google's auction.
- **Easy ad creation:** Produce text, image, and video ads for free with Ad gallery. Combine a dynamic remarketing campaign with Ad gallery layouts to scale beautiful ads across all of your products or services.
- **Campaign statistics:** You'll have reports of how your campaigns are performing, where your ads are showing, and what price you're paying.

How LinkedIn ads Targeting Works

Google Ad Grants

Google Ad Grants Fuels Your Nonprofit's Mission

From the local food banks feeding our neighbors to the international aid organizations responding during times of crisis, nonprofits are crucial to our communities.

Through Ad Grants, Google provides nonprofits **up to \$10,000 USD per month of in-kind search advertising**. These ads appear next to search results when people search for nonprofits like yours. Since 2003, Google has awarded over \$10 billion in free advertising to over 115,000 nonprofits across 51 countries.

Digital marketing can help nonprofits reach audiences at scale, with highly targeted, measurable solutions that deliver on goals nonprofits care about: awareness, donations, and volunteers.

With the help of technology, we believe every nonprofit can grow online.

Raise Awareness, Attract Donors, and Recruit New Volunteers Using Google Search Ads.

Google Ad Grants shows your message to people searching for nonprofits like yours.

We're Here To Help Every Step Of The Way

We'll handle everything for you and walk you through every step of the process. From registering for Google for Nonprofits, to activating Google Ad Grants and building your campaigns – we'll do all the heavy lifting.

The key to a successful Google Ad Grants account is weekly optimization. There are several criteria that must be met and maintained in order to run a successful Google Ad Grant campaign.

We'll optimize your campaigns on a weekly basis and ensure that your capitalizing on every opportunity to help you get the most out of the Google Ad Grant program.
